

BRIEUC KAESMANN (HE/HIM)

70 rue Claude Bernard, 75005 Paris | brieuc.kaesmann@ens.psl.eu | 07 81 95 37 50

Education

2023 – 2026 (Currently): Biology Master's degree IMALIS– M1 : Ecology Evolution / M2 : System Biology, Genomics and Bioinformatics - at the École Normale Supérieure (ENS), Paris.

UE: Genome Analysis (Pasteur). Transcriptomics (ENS). Population Genetics (ENS).

2022 – 2023: Interdisciplinary Biology Licence degree - at the ENS, Paris

2022: Admission to École Normale Supérieure (ENS Paris) and École Polytechnique

2020-2022: BCPST 1 & 2 at lycée Henri-IV, Paris

Academic experience

January – July 2026 (currently): Internship at the Génétique Evolutive Humaine lab (Institut Pasteur). Tutors: Etienne Patin, Pr. Lluís Quintana-Murci

Subject: Characterization and description of the archaic introgression and adaptive introgression in Polynesian populations.

Mars – June 2025: Internship at the Grange-Geigl Paleogenomic lab (Institut Jacques Monod).

Tutors: Thierry Grange & Eva-Maria Geigl.

Subject and learnings: Large database collection of high-coverage human genomes for imputation of middle-age western French genomes.

September 2024 – February 2025: Internship at CIRB in the Paleoanthropology lab (Collège de France). Tutors: Dr. Giulia Gallo, Pr. Jean-Jacques Hublin

Subject and learnings: Paleo-proteomics sampling and analysis on Middle-Paleolithic faunal remains from various south-western France sites. **ZoomS preparation and spectrum analysis.**

February – July 2024: Internship at Yale Paleoanthropology Lab (YPAL), New Haven Ct.

Tutors: Jessica C. Thompson, Pr. Stanley Ambrose and Diyendo Massilani.

Subject and learnings: Effects of thermal history and shell structure on **stable isotope geochemistry** and **ancient DNA** extraction potential of **archaeological ostrich eggshells.**

Ancient DNA extraction, purification, library preparation and data treatment. Stable isotopes (^{13}C , ^{18}O , ^{14}N) preparation and measurement and data analysis. Radiocarbon (^{14}C) dating.

Summer 2023: Internship at ISYEB / SPEC lab, National Museum of Natural History (MNHN), Paris, France. Tutor: Jérôme Fuchs (Associate Professor and birds collection director at the Museum)

Subject: Phylogeny and **selection regime** of Toucans, Barbets and assimilated (Aves: Piciformes)
